1. Reviews

We understand that it may appear obvious why ethical approval and informed consent are not applicable for certain review types, however in the interest of full transparency we do ask authors to provide full rationale where ethical approval and/or informed consent are not applicable.

Required Declarations

1. Conflicting interests
2. Funding
3. Ethical approval
4. Informed consent
5. Guarantor
6. Contributorship
7. Acknowledgements

Example of a completed declarations section:

Conflicting interests: MS is an employee of XXX. BF has received grants from XXX.

Funding: This work was supported by the Medical Research Council [grant number XXX].

Informed consent: Informed consent was not sought for this article because *REASON*.

Ethical approval: Ethical approval was not sought for this article because *REASON*.

Guarantor: BF

Contributorship: BF and NP researched literature and conceived the study. MS was involved in protocol development, gaining ethical approval, patient recruitment and data analysis. BF wrote the first draft of the manuscript. All authors reviewed and edited the manuscript and approved the final version of the manuscript

Acknowledgements: We would like to thank XXX XXXX for his assistance and guidance in this research.

Example of text that should be used if any declaration is not relevant to your article:

Conflicting interests: The Author(s) declare(s) that there is no conflict of interest

Funding: This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.

Informed consent: Not applicable

Ethical approval: Not applicable

Contributorship*: Not Applicable

Acknowledgements: None

**please note that the only time this declaration is not applicable is if only a single author is named on the article.*

2. Human Research and In Vitro Studies

Required Declarations

1. Conflicting interests
2. Funding
3. Ethical approval
4. Informed consent
5. Trial Registration (**where applicable**)
6. Guarantor
7. Contributorship
8. Acknowledgements

Example of a completed declarations section:

Conflicting interests: MS is an employee of XXX. BF has received grants from XXX.

Funding: This work was supported by the Medical Research Council [grant number XXX].

Informed consent: Please select and complete one of the statements [here](#) for your article.

Ethical approval: Please select and complete one of the statements [here](#) for your article.

Trial registration: Please select and complete one of the statements [here](#) for your article.

Guarantor: BF

Contributorship: BF and NP researched literature and conceived the study. MS was involved in protocol development, gaining ethical approval, patient recruitment and data analysis. BF wrote the first draft of the manuscript. All authors reviewed and edited the manuscript and approved the final version of the manuscript

Acknowledgements: We would like to thank XXX XXXX for his assistance and guidance in this research.

Example of text that should be used if any declaration is not relevant to your article:

Conflicting interests: The Author(s) declare(s) that there is no conflict of interest

Funding: This research received no specific grant from any funding agency in the public, commercial, or not-for-profit sectors.
